

Bassani General Warranty:

To be considered for warranty replacement or repair, at the discretion of Bassani, all products must be returned, with Original Proof of Purchase, to Bassani via Pre-Paid freight by customer.

Eligibility for warranty consideration shall be verified with corrective action required upon visual inspection of presumed defective product. Bassani shall not be responsible for any incidental or consequential damages including but not limited to, installation labor charges, freight, or loss of use or damage to vehicle or other property, or injury to operator, passengers, or others.

If you believe you have a defective part please refer to specific line of exhaust below for department information.

Digital pictures and Original Receipt are required, to assist in promptness of verification of possible defective items.

Bassani Motorcycle Exhaust Warranty

Bassani warrants its Motorcycle products to be free from Manufacturer defects from date of purchase for a period of 1 year only, proof of purchase mandatory. Bassani Motorcycle products are covered under no other warranty, expressed or implied as to merchantability or fitness for a particular use other than mentioned herein.

Nickel (Industrial/Polished Chrome) finish on Motorcycle exhaust is warranted until installation and use of product, at which time it is considered to have a limited resistance to rusting, discoloration and peeling.

High temperature ceramic coating on Motorcycle exhaust is warranted for 90 days from date of original purchase, proof provided. Superficial surface rusting of header coating, especially between tubes, is considered normal and therefore not warranted as a defect in materials and workmanship.

Wrapping of Pipe with Heat Tape may adversely affect the pipe & WILL VOID warranty!

The high exhaust temperatures found in engines exceeds the capabilities of the chrome plating to handle the heat without discoloration. Bassani does not guarantee the pipes against discoloration or blueing.

Bassani Motorcycle Warranty Consideration:

To be considered for warranty replacement or repair, at the discretion of Bassani, all original products must be returned, with Original Proof of Purchase, to Bassani via Pre-Paid freight by customer. Eligibility for warranty consideration shall be verified with corrective action required upon visual inspection of presumed defective product. Bassani shall not be responsible for any incidental or consequential damages including but not limited to, installation labor charges, freight, or loss of use or damage to vehicle or other property, or injury to operator, passengers, or others.

If you believe you have a defective part, contact Bassani Warranty Department at (714) 630-1821. Verification of Original sales receipt is Mandatory, by email motorcycle@bassani.com or fax (714) 630-2980.

Digital pictures and Original Receipt are required, to assist in promptness of verification of possible defective items.

Bassani Vehicle Stainless Steel

Bassani warrants its Stainless Steel Automotive line of products to be free from defects in materials and workmanship, for as long as the Original Purchaser shall own the vehicle on which it was originally installed for repair or replacement, to be determined by a Bassani representative or authorized Bassani resellers, discontinued part numbers excluded. * This warranty applies only to products advertised for installation and use on street vehicles, which are to be operated on public roads and highways. See “Bassani Vehicle Warranty Consideration” for more information.

**Warranty on discontinued items in Bassani’s Stainless Steel line of products will be limited to universal products only.*

BX Performance Vehicle Aluminized Steel

Bassani's BX Performance Automotive Line of products are covered by a limited lifetime warranty with original proof of purchase only, to cover manufacturing defects*. All aluminized components are covered against defects in materials and workmanship for 12 months from date of purchase, discontinued part numbers excluded. All Stainless components in the BX performance line are covered for 12 months from date of purchase, discontinued part numbers excluded. See “Bassani Vehicle Warranty Consideration” for more information.

Warranty on discontinued items in Bassani’s BX Performance line of products will be limited to universal products only.

Bassani Vehicle Warranty Consideration:

To be considered for warranty replacement or repair, at the discretion of Bassani, all products must be returned, with Original Proof of Purchase, to Bassani via Pre-Paid freight by customer.

Digital pictures and Original Receipt are required, to assist in promptness of verification of possible defective items.

****IMPORTANT SUPPLEMENTAL WARRANTY INFORMATION****

Catalytic Converters

Bassani high performance products incorporating catalytic converters are NOT street legal and are not designed or advertised for use as stock replacement parts. All parts shall be covered under the above warranty with exception of catalytic converters themselves, which carry a specific 90-day warranty, from original purchase date. This warranty covers defects in materials and workmanship only and DOES NOT cover catastrophic failure, such as catalyst overheating due to state of engine tune, or any Physical Damage imposed upon the converter itself or its housing. Illumination of check engine light referencing codes to catalytic converter banks, or O2 sensors is not guaranteed, see "Federal E.P.A. and individual state laws" below.

Industrial Chrome

Nickel (Industrial Chrome) finish on Automotive headers is warranted until installation and use of product at which time it is considered to have a limited resistance to rusting, discoloration and peeling, discontinued part numbers excluded.

High Temp Ceramic Coating

High temperature ceramic coating on Automotive headers is warranted against de-bonding and tube "rust through"; superficial surface rusting of header coating, especially between tubes, is considered normal and therefore not warranted as a defect in materials and workmanship, discontinued part numbers excluded.

SOUND

Bassani Xhaust mufflers, for all product lines, are NOT warranted to produce or cancel any particular tone, note or resonance. As sound preference is purely subjective, Bassani Xhaust recommends you conduct thorough research prior to making a purchase.

Voided Warranty

Any modification to an original "As Shipped" Bassani product shall VOID it's warranty. Any deviation from the original intended installation of a Bassani product shall also render the warranty VOID.

Federal E.P.A. and individual state laws

Federal E.P.A. and individual state laws make it illegal to remove properly functioning OEM catalytic converters from vehicles, which are operated on public streets and highways. As such, installations of Bassani Xhausts' catalyst equipped products are not legal for sale or installation on vehicles, which are operated on public streets and highways.

Installation of these products as intended in competition applications may require use of MIL eliminators or O2 Simulators to avoid possible setting a catalyst efficiency code, which will cause illumination of your vehicles' "Check Engine" light. This is due to the inability of currently available after-market converters to emulate the exact operation of factory OEM converters in late model year OBDII emission monitoring/control system applications.

Bassani Xhaust recommends aftermarket catalyst installation to be followed by a six-month road test period to determine the need for such a modification.
